

Niels de Visser

Recently graduated from Northcoders coding bootcamp (3 month intensive, Feb–June 2020) after deciding to pursue a career in the tech space. I am naturally driven to succeed and enjoy the challenge of troubleshooting and problem solving. I am actively looking for opportunities within software development.

TECH INDUSTRY EXPERIENCE

Northcoders, Manchester — Coding Bootcamp Student

Feb 2020 - Jun 2020

I learned full-stack software development as a student in the 12 week program offered. The bootcamp offers a practical, industry-led curriculum that includes learning best practices, version control with git, TDD and pair programming.

Fullstack project — NC News

NC News is a reddit-copy that allows a user to view a list of articles, comment & vote on them and sort articles according to creation time, votes and amount of comments.

- Backend: Node.js, Express, Knex, PostgreSQL, Nodemon
[Live demo NC News API](#) - [Github](#)
- Frontend: React, Axios, Reach Router
[Live demo NC News](#) - [Github](#)
- Test Suites: Chai, Mocha

Final Project — Cabbed

A real time footfall application targeted at black cab and private transport companies. The app provides real time data on hotspots in any city and provides users with the ability to submit data on pick ups and additional notes. Please see our graduation presentation [here](#).

- Backend: Node.js, MongoDB, Express, Mongoose, multiple api's
[Live demo Cabbed API](#) - [Github](#)
- Frontend: Flutter, Dart - [Github](#)
- Test Suites: Chai, Mocha, Supertest

PREVIOUS ROLES

Franke UK, Manchester — Internal Key Account Manager

Apr 2017 - Jun 2020

As an Internal Key Account Manager at Franke I used my transferable teamwork and organisation skills to take on great responsibility in being the point of contact for both the UK Multiples and Project markets.

- Guest Auditor during an Internal process audit at Franke Poland.
- UK wide training program providing product training on location.
- Management of multiple processes communication with multiple stakeholders throughout Franke UK.

Adidas, Berlin, Germany — Project Coordinator

Dec 2016

In my role as Project coordinator for 'Boost Berlin' a Adidas Running (UK) production, I used my communication and people management skills to direct client communication, logistics support and the management of local suppliers.
