

Niels de Visser

Recently graduated from Northcoders coding bootcamp (3 month intensive, Feb–June 2020) after deciding to pursue a career in the tech space. I am naturally driven to succeed and enjoy the challenge of troubleshooting and finding solutions. I am actively looking for opportunities within software development.

Prior to this (2017 –2020) I was an Account Manager for a global manufacturing company. Much of my role development during this time was proactive and I was able to develop quickly and contribute to the wider UK team. I am a good communicator and a positive person and am always seeking to improve. I am very much looking forward to my next (ad)venture!

TECH INDUSTRY EXPERIENCE

Northcoders, Manchester — Coding Bootcamp Student

Feb 2020 - Jun 2020

I learned full-stack software development as a student in the 12 week program offered. The bootcamp offers a practical, industry-led curriculum that includes learning best practices, version control with git, TDD and pair programming.

Fullstack project — NC News

NC News is a reddit-copy that allows a user to view a list of articles, comment & vote on them and sort articles according to creation time, votes and amount of comments.

- Backend: Node.js, Express, Knex, PostgreSQL, Nodemon
 - Hosted: nc-news-voltreffer.herokuapp.com/api/
 - Github Repo: github.com/BENC-News-App
- Frontend: React, Axios, Reach Router
 - Hosted: fenc-news-app.netlify.app/
 - Github Repo: github.com/FENC-News-App
- Test Suites: Chai, Mocha

Final Project — Cabbed

A real time footfall application targeted at black cab and private transport companies. The app provides real time data on hotspots in any city and provides users with the ability to submit data on pick ups and additional notes. The input data is used to calculate expected hotzones.

- Backend: MongoDB, Node.js, Express, Mongoose, multiple api's
 - Hosted: be-cabbed.herokuapp.com
 - Github Repo: github.com/be-cabbed
- Frontend: Flutter, Dart
 - Github Repo: github.com/fe-cabbed
- Test Suites: Chai, Mocha, Supertest
